**Description of Experience:** My regular dentist botched a gum graft (donor site would not stop bleeding). I was in severe pain, bleeding gums, couldn't eat or drink. .

**Member Comments:** Found Dr. Nicoara on a web referral. SHE's MAGICAL! She fixed the botched work, prescribed a completely different treatment plan (included making a plastic "stent" to cover the donor site on the roof of my mouth so it could heal). I soon could eat and drink and the donor site stopped bleeding and began to heal. "Regular dentist" lied when he said it would heal in 1 week - Dr. Nicoara told the truth: 6 months to full healing

**Description of Experience:** My regular dentist, Dr. Ross Haddow, referred me to Dr. Nicoara to have a tooth stub and root removed and then have two rods implanted in order to replace two molars. Although I was "just a bit" nervous, Dr. Haddow assured me that Dr. Nicoara was great, that she had done his implant, and he could recommend her without any reservation whatsoever. There are not words sufficient to express how easy and PAINLESS this whole procedure was. Dr. Nicorara's office was prompt, VERY polite, and responsive in setting up my appointments, working with my insurance carrier, answering ALL my questions, and making me feel comfortable. Dr. Nicoara herself was UNBELIEVABLE. She carefully and thoroughly explained all that needed to be done and how she would do it. My initial procedure was to have the small remains of a tooth and its root removed. The second procedure, two months later, involved what I believe is called a Sinus Lift and implants. She had to cut out a piece of my upper jaw, lift the sinus lining, and then insert two 11 mm screws. Had I not experienced this, I would never have believed it, but Dr. Nicoara is SO good that I felt NO pain WHATSOEVER in either procedure. None, Nada, Nothing. She is fantastic and I cannot say enough about her skill and her chairside manner. The first procedure was no problem: no pain, no swelling, no bruising - nothing. While there was some bruising and swelling after the second, and FAR more intrusive procedure, there was NO pain whatsoever. I was a little sore afterwards for a couple days, but it wasn't anything that a simple aspirin didn't take care of. Dr. Nicoara called me herself two days after surgery (on a Saturday morning. Two weeks later I had the stitches removed, and I'm no waiting three months for the bone graft and healing. If anyone has ever questioned whether or not to go through this procedure, hesitate no longer. This woman knows her stuff and her office staff are equally adept. I am a believer and a fan - she is fantastic. If I could rate Dr. Nicorara and her staff an A+++++ I would certainly do so. 100%

**Description of Experience:** Dr. Nicoara is my dentist.

**Member Comments:** She is absolutely wonderful. She is a surgeon. She's going to do implants on my teeth. She is very gentle and very sweet. Everybody is very professional and very kind there. She is very clean. When she pulled a tooth, she just felt like doing a surgery. She is so sweet too. She doesn't hurt or anything. She is so kind. Her availability is very good.
